LABOR LEADERS ISSUE STATEMENT TO THIS EFFECT INDUSTRIAL CRISIS CAUSES SLUMP

Decision of the Executive Council is Based
On Reports from Unions Thruout the
Country—Will Ask For Recognition of the
Irish Republic by the U. S. Government

(By The Associated Press)
ATLANTIC CITY, N. J., Aug. 29.—The open shop campaign and the "aggressive hostility of unfair employers" has strengthened rather than weakened the solidarity of the organized movement, it was declared in a statement tonight by the executive council of the American Federation of Labor. The council based its decision, the statement said, upon reports submitted by affiliated national and international unions and other information collected thruout the country.

Analysis of the reports, the statement said, showed that a reduction in payment of dues by the federation's membership was due principally to the wave of unemployment thruout the country. Secretary Frank Morrison took occasion to deny reports published today that the federation had suffered a slump of 750,000 members during the present industrial crisis.

STARVATION IS FACING TWENTY MILLION PEOPLE

Soviet Relief Director
Tells Correspondent
of A. P.

(By The Associated Press)
MOSCOW, Aug. 29.—Leo Kamineff, the Soviet relief director, told the correspondent today that 20,000,000 persons in fifteen provinces of Russia are facing starvation. Food resources were about fifty per cent below those of pre-war days, he said.

Many of the seven million persons living in districts where crops proved absolute failures began migrating to Turkestan and Siberia weeks ago, but this migration has been stopped by a government shipment of 350,000 pounds (210,000 bushels) of seed grain and the assurance that seed would be supplied to insure next year's crops.

Kamineff said that only about 300,000 persons actually migrated and that this movement was now negligible.

According to Kamineff 9,000,000 persons have seed grain and some for eating.

Continuing, Kamineff said that seed and good medicines were imperative needs. The Soviet government was grateful for America's help thru Herbert Hoover, but it was desirous of letting the world know how much more aid was necessary. He said Russia could supply rolling stock and cartage, but that she would require coal to move grain northward from Novorossok.

Kamineff ended the interview by saying that 225,000,000 pounds of grain, including 18,000,000 pounds of seed grain would be necessary to carry Russia thru on short rations until the next harvest.

Governor Appeals For Troops

AUSTRIANS MEET WITH RESISTANCE FROM HUNGARIANS

Trouble Starts Thru
Attempt to Occupy
Burgenland

(By The Associated Press)
VIENNA, Aug. 29.—The Austrians have met with resistance from the Hungarians in the occupation of Burgenland, the little strip of West Hungary awarded Austria by the peace treaty, according to reports reaching here. Late Sunday night Lieutenant Hedjas, one of the recalcitrant leaders of West Hungary, heading a large detachment of his irregular forces seized the railway station at Odenburg and filled the streets with uniformed men armed with pistols.

One detachment of 170 men advanced to Pinkafeld, where they met with hand grenades and machine guns the Austrians, who were coming in to take over the territory. It is not believed that the casualties were great. It is said allied officers marched with the Austrian troops when the attack was delivered by the Hungarians. A demonstration by the Czechs is expected unless the allies forbid the occupation of Burgenland. The Czechs are known to have concentrated a full division on the frontier near Pressburg and other forces along the Hungarian border. The movement of the occupation has been suspended and Herr Schober, the Austrian chancellor and foreign minister, is appealing to the inter-allied representative here to take the necessary steps to secure fulfillment of the terms of the treaty giving Burgenland to Austria. As far as is known the only foreign troops in the territory are a few hundred Italians.

SAYS LARGE FORCES ARE AGAIN LEAVING FOR LOGAN COUNTY

Armed Patrol Attacks the State Police Near
Sharples Saturday Night—The Leaders
of Forces are Said to Come from Illinois,
Kentucky, Ohio—Gen. Charnock Reports

(By The Associated Press)
CHARLESTON, W. Va., Aug. 29.—Governor E. F. Morgan at midnight telegraphed an appeal to President Harding to send federal troops into West Virginia.

Reiterating that large forces are again leaving the Cabin Creek district tonight for the Logan border, Governor E. F. Morgan sent the following statement to Washington at midnight addressing it to both President Harding and Secretary of War Weeks:

"General Bandholz left Saturday. At that time armed men in Paint, Cabin and Lens Creek and Big Coal River fields were dispersing. On Little Coal River in the vicinity of Sharples, Clothier, Blair and Madison, armed men in excess of 1500 have refused to disperse when requested by representatives of federal and state governments.

"On Saturday night, near Sharples, an armed patrol attacked a body of state police, which returned fire and killed three men. These armed bodies have also captured five Logan county peace officers and are holding them as prisoners.

"We have information that several hundred men from the coal fields or other settlements, are gathered with these insurrectionists in the little coal river section and we are in possession of the names of the leaders, who come from Illinois, Kentucky and Ohio. This element has threatened the lives of officers of the United Mine Workers of this district who have asked them to disperse. Adjutant General Charnock has just returned from the vicinity of Sharples, where he commanded the insurrectionists to disperse, but they have refused and are maintaining armed patrols on the roads and have seized passenger trains on the Chesapeake & Ohio railroad to transport reinforcements to their camps.

"They have cut the telephone wires and refused to allow their replacement and they continue to defy constituted authority. Large forces are again leaving Cabin Creek district tonight for the Logan border and have destroyed all communications on that creek.

"The men now assembled in Logan from McDowell, Mingo and Logan counties to resist the invasion will be utterly unable to repel the attack.

"Because of the imminent danger of great loss of life if there is a clash between the Logan officers and citizens and the armed insurrectionists, and believing it is my duty to seek protection for the lives and property of our citizens, I most respectfully renew my request for federal troops to be sent forthwith to West Virginia for the purpose of quelling the insurrection and disarming those engaged in it. Delay, in my opinion, will prove most disastrous."

The remains were removed to the undertaking parlors of A. G. Cody and prepared for burial. The date for the funeral has not yet been set but will be made known in a later issue.

BIG DAMAGE SUIT IS FILED AGAINST PACKING CONCERN

Suit for \$120,000,000
Charge Conspiracy
to Form Trusts

(By The Associated Press)
CHICAGO, Aug. 29.—A damage suit for \$120,000,000 charging packing concerns in Chicago with conspiracy to form trusts and naming John D. Rockefeller, Jr., and son in addition to several national banks was filed today in the United States district court by Mr. and Mrs. Louis Osborne Karson of Omaha, Neb. The bill originally filed in Omaha, was amended to be filed in Chicago due to the number of local firms involved.

The bill sets up that "due to the scandal caused by embalmed beef fed the soldiers during the Spanish-American war, your complainants were inspired to manufacture pork and bean biscuit which would be at once edible and nourishing. They approached Swift & Co., for the use of their laboratories.

"The use of the laboratories was promised but the packing companies, maliciously, unlawfully and wickedly conspired to stifle competition by forming a trust and making it impossible to make or sell these biscuits. And many complainants feel that they have been damaged to the amount of \$120,000,000 and they pray for a judgment for this sum" the bill states. The alleged conspirators named in the bill are Armour & Co., Swift & Co., Morris & Co., Cudahy Packing company, John D. Rockefeller, Sr., J. D. Rockefeller, Jr., Union Stock Yards, Logan & Bryan, First National Bank of Chicago, J. B. Forgan and David R. Forgan of the National City Bank; Henry S. Robbins, Max Pam, brother of Judge Hugo Pam, Charles M. Schwab; Theodore Shonts, now deceased; Ward Baking company, Standard Oil company of all states, and the Riggs National Bank of Washington, D. PRESIDENT OF MINE WORKERS MAKES REPLY

Issues Reply to Statement
Made by Governor
Morgan

(By The Associated Press)
INDIANAPOLIS, Ind., Aug. 29.—John L. Lewis, president of the United Mine Workers of America, today issued a statement declaring that he was "more than ready to join Governor Morgan in any sincere attempt which he may make to prevent civil war in West Virginia and to lend aid to the constituted authorities in securing respect for the state and federal laws."

Mr. Lewis said his statement was prompted by one issued by Governor Morgan in which the governor declared that circumstances connected with the march of armed men thru the state indicated that Mr. Lewis "has not made a large contribution in trying to prevent civil war in West Virginia or aid the constituted authorities in suppressing defiance of those authorities."

Mr. Lewis' statement follows: "Governor Morgan is entirely in error when he leaves the inference as to the identity of the leaders of certain armed hands in the coal fields of West Virginia which have as yet refused to disperse at his command.

"I am more than willing to join Governor Morgan in any sincere attempt which he may make to prevent civil war in West Virginia and to lend aid to the constituted authorities in securing respect for the state and federal laws. As the first and logical step in this direction I suggest to Governor Morgan that he compel the surrender and disarmament of the Baldwin-Felts private army now operating in the coal fields in that state. If this army of thugs lays down its arms to the government, he should also insist they also surrender all their privately owned munitions of war, including huge stores of ammunition, rifles, side arms, machine guns, mobile field pieces and armored cars.

"Governor Morgan can disarm and disband this private army of thugs if he will and if he is really sincere in the desire to avoid civil war in West Virginia he will do this.

"Governor Morgan has publicly admitted that the employment of an army of detectives in the coal fields is reprehensible and indefensible. Having such conditions, his obvious duty is to drive them out."

REPORT ON WILLOW CREEK DRAIN DISTRICT

A report on the conditions of Willow Creek Drainage district was recently made in the city by the commissioners from Meredosia, J. W. Dubendach, John Steinberg and Edward J. Roszge. But little work has been done in this district during the past year, which is one of the oldest districts in the state.

LEAGUE OF NATIONS WILL TRY TO SOLVE SILESIAN PROBLEM

Accepts the Task of Disposing of Upper Silesia—Enough States Secured to Put
International Court Into Effect—Ninety
Candidates are Nominated for Places

(By The Associated Press)
GENEVA, Aug. 29.—The council of the league of nations has accepted the task of solving the questions of the disposition of Upper Silesia. Viscount Ishii, as president of the council so informed Premier Briand of France after today's session of the council.

Discussion of the subject, however, will not be started before Thursday, the councilors meantime studying the voluminous documents of the tangled case which were distributed to them today. Whether Germany and Poland will be invited to send representatives to present their claims and explain their cases to the council is to be decided Thursday.

When the council convenes tomorrow to deal with routine affairs, it will be presided over by Dr. V. K. Wellington Koo, of China. Viscount Ishii will take the president's chair when the extraordinary sessions for the Silesian deliberations are called.

League circles are much elated over the prospects of the early convening of the international court of justice as twenty eight states, three more than the number required to put the court into effect, have ratified the project. Hence, the eleven judges of the court will be elected by the forthcoming meeting of the assembly.

Ninety Candidates Named.
Ninety candidates thus far have been named, among them former President Poincare of France, nominated by Portugal. As soon as convenient after the election the court will be convened at The Hague. It is confidently expected here that one or more Americans will be on the bench.

The election of Elhu Root is looked upon as a foregone conclusion if he allows his name to go before the assembly; otherwise the election of one of the other three Americans nominated is mostly likely.

The Albanian delegation to the assembly of the league already has arrived here and has announced its intention to appeal to the assembly from the decision of the council in referring Albania's complaints against Greece and Jugo-Slavia to the ambassadors' council. This action promises to enliven the proceedings of the assembly.

Some of the smaller powers have announced their intention of protesting on the floor of the assembly against the predominance of British on the staff of secretary of the league. They will ask for representatives of the league in proportions to the populations.

WILL TRY TO GET SEPARATE TRIALS

LOS ANGELES, Cal., Aug. 29.—Every effort will be made to obtain separate trials for Mrs. Madeline Obenchain and Arthur C. Burch, it was announced by their counsel today, after they had pleaded "not guilty" to charges of having murdered J. Belton Kennedy, broker, and their trial has been set for November 1. A general counsel was planned late today by Paul Schenck, chief defense counsel, his associates in the defense, Richard Kittrelle and Ralph R. Obenchain, the former husband of Mrs. Obenchain, and the Rev. W. A. Burch, of Evanston, Ill., the father of the other defendant.

Schenck, whose absence from the city resulted in two postponements of the pleas, said his first action in the defense would be an interview with Mrs. Obenchain and his second probably a visit to the Kennedy cottage in Beverly Glen, near here, where the young broker was slain the night of August 5.

After the pleas had been entered before Judge Sidney N. Reese, of the superior court, the defense asked for an opportunity to file a motion for separate trials.

IRISH LEADERS BUSY ON REPLY TO LLOYD GEORGE

Admit That It Is Not
Yet Known What
Reply Will Be

(By The Associated Press)
DUBLIN, Aug. 29.—The Republican ministers were busy today in consultations among themselves and with their supporters concerning the Irish situation, but it was officially announced at 6 o'clock this evening that no reply to the latest communication of Premier Lloyd George would be sent to London tonight.

Officials at Dublin castle and other persons interested in the success of the peace negotiations seemed unperturbed over the delay in replying to Mr. Lloyd George. It was admitted at the castle that it was not known what the latest reply of Mr. DeValera and his followers would be. Optimism, however, prevailed at the castle.

Reply May Be Altered.
It is considered probable that the reply may be altered to some extent on the advice of persons outside of the Dublin.

It has been alleged that Mr. DeValera's previous letter to the premier was toned down before it was sent to London.

The report that Michael Collins, the Sinn Fein minister of finance, intends to speak in Aramagh next Sunday is considered here as an indication that the Sinn Fein intends to carry the battle for a United Ireland into the "enemy's" country.

It was said tonight that if Mr. Collins achieved any success, Eamon DeValera and Arthur Griffith may follow suit.

HE HOUSE NEED REAL

A Roodhouse man came to Jacksonville recently and engaged

In a two days' fruitless search for a desirable house to rent. This case is typical and real estate men state that it is a matter of common occurrence to receive applications for houses from non-residents which they are entirely unable to meet. This is an unfortunate condition, as the city is thus losing the opportunity for increase in population.

It is one thing to point to the unfortunate condition, and still another to tell how that condition may be remedied.

WANT ONE HUNDRED PER CENT VOTE

Representatives of railway employees are taking a vote as to whether they will accept the wage cuts or go out on a strike. In this instance it is noteworthy that the citizens are insisting that there shall be a full and complete vote. Too often in the past 50 per cent or less of the members have taken part in the referendums. The questions involved are of such great importance that there are good reasons for a 100 per cent vote.

THE GREAT DAY HAS COME

No more important announcement has been made in Jacksonville for many years than that at the city council last night, indicating that the water supply is now fit for domestic use. That announcement has been looked forward to for year after year. Many people have not had faith to believe that the day would ever come.

They could see in the future the possibility of an ample supply for sewerage and fire protection, but for domestic supply—that was almost too fine a condition to hope for. But now the day has come and the state department of health after a long series of tests made in co-operation with the local engineers, announces that the city water is far better than that from most of the wells.

The ample supply of pure water will mean healthier conditions in Jacksonville and that supply will form the certain basis for substantial growth.

Dr. Bussey and Dr. Blake Will Begin Work Soon at Local Institution.

Announcement has been made recently of two additions to the faculty of Illinois college. Dr. Robert O. Bussey has been named head of the department of modern languages. Dr. Bussey took his master's degree at the University of Illinois and the degree of doctor of philosophy from Harvard. He has held graduate fellowship and scholarships at both Ohio State University and Harvard.

For two or three years he has devoted himself especially to the study of French and Spanish and is just returning from a year's study in the study of Spanish on the Mexican border.

For a period of ten years Dr. Bussey was assistant professor of German and French at Ohio State University.

The trustees also feel fortunate in having secured the services of Dr. Marion Blake, who is the successor of Miss Flora Taylor as instructor in Latin and English. Miss Blake took her collegiate work at Mt. Holyoke and her doctor's degree at Cornell university. CHAUTAUQUA AT WINCHESTER CLOSDS

Final Day's Program Was An Excellent One—Mrs. John Sherlock Arrives from Denver—Other Winchester News.

Winchester, Aug. 29.—The Chautauqua closed Sunday night, after one of the most successful seasons in the history of the movement. The attendance at each and every session has been large and the programs have been all that was anticipated.

The Bernabo Concert Co. did not arrive in time for the afternoon program, but the large audience assembled in the tent was entertained by a lecture by Frank L. Mulholland, who discussed "The Path of the Greatest Profit." The speaker brought out various points on how to make the home community one of the best.

At 6 o'clock many enjoyed their lunches on the grounds and at 6:30 o'clock Mr. Mulholland gave an interesting talk on "Conditions Existing in Russia, Germany and Eastern Europe."

In the evening the Bernabo Concert Co. gave a very pleasing concert program, although greatly handicapped by the absence of the soprano, Miss Bernabo, who was called to New York City by the illness and death of her father, and further by the fact that the tenor, Trepion, was suffering from a severe cold and bronchitis. The main address Sunday evening was by Paul (Sunshine) Dietrick, whose theme was "A Sacrifice Hill." His words had much in them of special worth along the line of community betterment.

The prospects for next year's chautauqua are very good. The management is grateful to all who took an active part in making this year's assembly the success it was.

FORMER SOLDIER ATTACKS PHYSICIAN

In Ledgerwood, of the Jacksonville State Hospital, was assaulted by Harley Lawson, an ex-soldier, an inmate of the hospital on parole, after the final program of the Manchester chautauqua. Dr. Lucas and a party of friends were enjoying refreshments in an ice cream parlor when Lawson made the attack, which is said to be due to a personal grudge.

Dr. Lucas, who was host for the party, attempted to shield Dr. Ledgerwood with the result that he received several painful injuries from blows struck by Lawson. A large number of men and boys saw the affair, but Harvey Gidney was the only one who went to the doctor's aid. Lawson stood him off with a club and succeeded in escaping out of town.

Lawson had been under the care of the soldiers' department of the State Hospital for some time.

The sumptuous dinner was followed by a program consisting of a violin solo by Miss Edith McCollister of Jerseyville, accompanied by her sister, Miss Elizabeth, reading, Lucile Griswold, dance Dorothy Gahuly. A letter from Mrs. Hattie Pinkerton was read. She is sojourning in Colorado for her health, and has found great benefit since leaving here. Those from a distance included Mrs. Mary Stewart and son, A. D. of Anchor; Mrs. Jessie Grishy, Fayette, Mo.; Stewart Turnear, enroute from South America to his home on Madison, Wis.; Mrs. Ed North and son, John of Memphis, Tenn.; he later recently returning from South America; Mrs. Clark Baldwin, Denver; Walter Northrup, Oklahoma City. CITY COUNCIL HELD A BUSY SESSION

PETITION FOR SUNDAY PICTURE SHOWS PRESENTED

Council Willing to Submit Question to Vote at Regular Election—City Water Is Now Usable for Domestic Purposes—Engineer Reports—Other Matters of Business Considered.

The city council in session Monday night heard the good news that the city water is now usable for domestic purposes. This fact was conveyed to the council in a report made by the Caldwell Engineering Co., which was received and made a matter of record.

The council was held with Mayor Crabtree, City Clerk Scott, Aldermen McGinnis, Flynn, Loneragan, Ehrie, Cain and Rowe in attendance. Under the head of petitions one with about 160 names was presented, asking the council to pass an ordinance permitting theatres to operate on Sunday. After some discussion it was the expressed view of the council that this question will be submitted to a vote of the people at the first election at which this can be done without expense.

Stanley H. Wright, manager of the Grand Opera House, presented the petition and spoke in advocacy of the action desired.

A communication was read from the Sisters of the Holy Cross asking that action be taken for the establishment of a quiet zone near the hospital for the comfort of patients. This matter was referred to the police department with instructions to give whatever relief is possible.

A bill from the Chicago & Alton railroad was presented for \$2,225 balance due on the construction of a switch. The work cost considerably more than the original estimate made by the Alton.

An informal report was presented stating that complaints have been made because of a milk supply, several physicians reporting cases of sickness which they believed attributable to impure milk. This matter was referred to the health committee with instructions to learn just what authority cities may have in providing for the inspection of milk and dairy herds.

Plea For Sunday Theaters.

The petition with reference to the Sunday opening of theatres and picture houses was read by City Clerk Scott. The language and signatures are given below. Stanley H. Wright, manager of the Grand Opera House, said that practically all other cities keep their picture theatres open on Sunday and that it is now a great many Jacksonville people go to other cities on Sunday for the very purpose of attending the theatres. He said that it is a business proposition, and that the opera house cannot be operated profitably without the opportunity of giving Sunday shows. He urged the council to take favorable action, stating that he had secured the petition presented in an hour's time and could easily present a petition with 1,500 names attached.

Answering a question from Mayor Crabtree, Mr. Wright said that Mr. Scott of Scott's theatre had signed the petition, and that Mr. Luttrell of the Majestic, and Mr. Buckthorpe of the Rialto were not in favor of Sunday shows.

Alderman Loneragan was in favor of granting the petition at once, and said that he thought the council should be willing to vote that way. He said, that he knew from conversation with the aldermen that they would not be willing to pass such an ordinance, but would be willing to submit it to a vote of the people.

Will Submit Question. On motion of Alderman Loneragan, with a second by Alderman Rowe, it was decided that the question of Sunday picture shows should be submitted to the vote of the people at the next regular election, or at the November election if it can be done at that time without expense.

Alderman Ehrie for the cemetery was authorized to proceed with the platting of certain additions to Jacksonville cemetery. He was also authorized to present an estimate as to the cost of some work which is badly needed on the house at Diamond Grove cemetery.

On motion of Alderman Loneragan, all contractors who have contracts for walks which they have not yet put down are to be instructed to immediately proceed with the work. It was decided

also that bids shall be asked for the construction of sidewalks on Reid street and some other streets for which ordinances were recently passed.

Trouble with drainage in the alley back of the opera house was again reported and Mayor Crabtree is to see H. K. Chenoweth, receiver of the opera house property, and L. F. O'Donnell with reference to what shall be done to give permanent relief.

City Water Is Available. Mr. Caldwell presented a report setting forth that the water which passes thru the city mains is now usable for domestic purposes, and in many instances is of better quality than that which is being supplied from wells about the city.

Along with the report Mr. Caldwell filed copies of analyses of water made at his request by the department of public health. Samples of water were sent from the city supply taken at various points and also from wells and cisterns located in different parts of the city. Mr. Caldwell in answer to questions, explained that bacteriological tests are being made of the water each day. He said that contamination is possible but that as soon as anything of the kind is discovered that the public can be and will be promptly notified. He said further that the treatment of the water with chlorine after it has passed thru the filter is a practically certain method of killing any harmful bacteria.

Some members of the council asked if there were fish in the reservoir. Mr. Caldwell replied that there are some fish there, that they had been pumped in the mains and then dumped into the reservoir. However, he explained that there is very little danger of contamination from such a source. It was the suggestion of the engineer that people who expect to begin the use of city water for domestic purposes open all the valves in their homes or places of business for a short time before beginning the use of the water, thus giving the pipes in their residences or places of business a wash-out.

The letter from the Caldwell Engineering Co., and also the letter from the department of public health relating to the supply are reprinted.

Water Letter, Engineer's Report.

Jacksonville, Ill., Aug. 29, 1921. To the Honorable Mayor and City Council, Jacksonville, Ill.

Gentlemen:—For some considerable time we have been trying to perfect the operation of the new municipal filtration plant to the degree wherein our judgment the water furnished to the city would be suitable for domestic drinking and all other purposes and we are pleased to notify you that we believe that this thing has now been accomplished.

The process of filtration is not new as you are probably aware, and can be relied upon when conscientiously prosecuted to give good results. In addition to filtration, which in itself combined with the coagulation, is capable of giving a good and safe potable water; chlorine is also added as an additional safeguard.

Daily bacteriological tests are at the present time being made of both the water in the reservoir and the filtered product as it leaves the plant. Sufficient chlorine is added not only to insure a high degree of sterilization at the plant, but enough is added to remain in the water, as indicated by daily tests, to be found in the mains over the city, thus assuring freedom from harmful organisms, which might possibly enter the system, though not likely, thru incorrect operation of the filters.

We have in our possession a number of analyses from the State Board of Health of the present city supply, which are extremely reassuring. Believing that the water now furnished the city of Jacksonville is suitable and safe in every way for domestic consumption and drinking, we beg to remain,

Yours very truly,
Caldwell Engineering Co.,
S. L. Miller, Sanitary Engr.

From State Department, Jacksonville, Ill., Aug. 9, 1921. The Caldwell Engineering Co., Jacksonville, Ill.

Dear Mr. Miller:—The analysis of the samples of water which you collected and sent to this laboratory on July 18 and July 25, have been duly completed and copies are herewith enclosed for your information.

The analysis of the sample collected from the No. 3 filter on July 18, Lab. No. 4995, was not entirely satisfactory, due probably to the excessive high rate of filtration. The water, however, was safe for drinking purposes. The fact that the filters were not producing a water of satisfactory quality would have some effect on the chlorinated water. It is possible that the same reason could be given for the appearance of a few gas-formers in the samples collected from the distribution system on July 25. Under normal conditions it would seem as if the dose of chlorine, 0.75 p. p. m., should be sufficient to have produced a lower bacterial count and the absence of gas-formers even after 48 hours' incubation. It is possible that the water contains a large amount of organic matter which requires additional chlorine. It is suggested that the amount of gas-forming agent necessary might be obtained by the use of the ortho-toluidine or starch iodine tests, allowing the samples of treated water to remain five minutes before the chemical is added.

In your letter of July 8 in which you requested these analyses, you stated that the purpose of the analyses was to indicate that the public water supply of Jacksonville was of better quality than water obtained from other sources now used in institutions and industrial establish-

ments in your city. As you are doubtless aware, private wells in a building community such as Jacksonville cannot be regarded as safe sources of drinking water supply. During the past three years this department has made analyses of samples from a considerable number of wells in Jacksonville and only a very few, probably not over five per cent, have shown a water which was safe for drinking purposes.

We realize that these analyses will not show conclusively that the city water is of better quality than that obtained from other sources, but nevertheless they may be of some assistance. If at a later date you desire to send additional samples, kindly advise us and we will forward you as many containers as the regular work of the laboratory will permit.

Yours very truly,
By direction of the Director
Harry F. Ferguson,
Chief Sanitary Engineer.

The petition with reference to Sunday picture shows and the signatures was as follows: "We the undersigned adult residents of the city of Jacksonville aforesaid, do hereby humbly petition that the said city council of the city shall by ordinance permit and allow motion picture shows and theatres to be and remain open and to conduct them as businesses in said city on Sundays, and we further pray that said city council shall immediately proceed with the enactment of such an ordinance."

SURPRISE GIVEN FOR WOODSON PASTOR

Rev. I. H. Fuller and Wife Given Very Pleasant Surprise on Return from Vacation Trip—Other Woodson News

Woodson, Aug. 29.—Members of the Christian church planned a very pleasant surprise party Monday evening in honor of their pastor, Rev. I. H. Fuller, who with Mrs. Fuller has been absent for the past month on a vacation visit. Members of the congregation and their friends gathered at the church and spent some time in a very pleasant social manner. Dr. G. W. Miller made brief remarks welcoming the minister and his wife back to the community, and Mr. and Mrs. Fuller responded with a very interesting account of their trip. During the hours the ladies served light refreshments. Mr. and Mrs. J. H. Shirley returned Sunday from Hartsburg, Ill., where they went last Wednesday. On Thursday they attended a family reunion of members of Mr. Shirley's family, which was a very pleasant affair.

W. T. Craig was taken to the hospital in Jacksonville Monday for treatment. Mr. Craig has been ill for some time past and it is hoped that the care he will receive at the hospital will bring about an improvement in his condition.

Dick Robinson of near Alexander visited Monday at the home of his sister, Mrs. George Newman.

Mrs. Eva Meggison, who underwent an operation at Passavant hospital Friday, was Monday reported to be slightly improved in condition.

DON'T COUGH

You can stop that distressing cough—stop it quickly and surely Foley's Honey and Tar is the best known and most successful family cough medicine on the market. It loosens the phlegm and mucus; soothes the raw inflamed surfaces; cures the soreness and gives quick relief. Contains no opiates.

F. G. Prevo, Bedford, Ind., writes this: "I gripped left me with a severe cough. I lost weight and got so thin I lost all of my hair. I never got well. I tried Foley's Honey and Tar and after taking two bottles, I am well and back to my former weight."

OUR PRICES

vs.

"Big City" Prices

—We have known always that prices charged in this city for made-to-measure suits and overcoats, taking the identical cloth into consideration, were much less than those charged in other cities. But, it has been difficult to convince many persons of this fact.

—Recently several men have called at our store and talked with us about suits. They knew woollens so they could not be fooled. They got our prices and found for a fact that we are from \$20. to \$50. under "Big City" prices for the same garments.

—Why then buy away from home?

—Our new goods for fall and winter suits and overcoats are in—Now.

—All we ask of the men of this community who like and wear good clothes is to call and see the new fabrics, get our prices and let us show them just how and why Jacksonville prices are lower. No obligation is entailed. We gladly welcome the opportunity.

ASBURY CHURCH HAS DEDICATION

Interesting Exercises Conducted Sunday—Program As Published in Journal Sunday Carried Out.

The members of the Asbury Methodist church dedicated the new basement of their church Sunday at 12 o'clock, dinner following the regular preaching service by Rev. G. W. Randle. After the service an interesting program was given and then the sumptuous chicken dinner was served by the Ladies' Aid of the church.

Following the dinner and a delightful social hour, the members and their families reassembled for the afternoon program, which was presided over by Edward Hembrough. The program was thoroughly enjoyed by all and consisted of two vocal solos by Miss Nellie Self, a piano solo by Miss Hembrough and the dedication speeches by H. H. Bancroft and Rev. T. H. Tull.

The new improvement to the church is hoped by the members to be such an asset that it will make the church the social as well as religious center for the community, and judging from the great interest taken in its construction, this hope will certainly come to pass.

MANY OFFERS MADE TO TAKE IN BOY

Miss Forward, the local Red Cross secretary, made a trip to Waverly yesterday to get the little boy that the Red Cross recently made an appeal for. The Red Cross officials are greatly pleased with the spirit shown in regard to finding a home for the little fellow, as seven or eight different families have called at the Red Cross headquarters and signified their willingness to take the little boy for the required time. As yet nothing definite has been decided, but the people of Jacksonville at least guaranteed him a home.

Defeats Chicago By Score of 8 to 7—Cuts Pittsburgh's Lead to One and One-Half Games.

New York, Aug. 29.—The New York Nationals cut Pittsburgh's lead to one and one-half games, winning their seventh successive game today by defeating Chicago 8 to 7. The hitting of Meusel, who made a triple double, single and a sacrifice in five times up, was largely responsible for the New York victory.

Daily Market Report

BULLISH NEWS
AFFECTS MARKET

By Associated Press.
CHICAGO, Aug. 29.—Bullish
news served to make wheat prices
average higher but a rather wear-
isome response to this news caused a
slight slump at the finish on the
Chicago Board of Trade today.

Wheat was 1/2 to 3/4 higher at
the close while corn, after hold-
ing to narrow limits all day, fin-
ished a shade lower all around.
Oats also varied but little and
finished a shade under the open-
ing. In provisions meats were
generally unchanged but hard was
30 points up. This was a de-
crease of 3,250,000 notice in the
visible supply of wheat while the
seaboard reported sales amount-
ing to 750,000 bushels including
two cargoes to Spain and one to
Germany. Reports also stated
that Japan has been buying on
every break on the Pacific coast
where 6,000,000 bushel room has
been chartered mainly for Sep-
tember loading. A break of 5c in
cash premiums at Minneapolis
was about the only bearish fea-
ture of the day.

Corn trade was moderate while
local receipts were heavy, 1,000
cars being reported. The market
held within narrow limits all
day.

Oats were dull and so new-
market, on increases of 5,906,000
bushels in the visible being a
feature.

Provisions were moderately
quiet with packers buyers of Sep-
tember and sellers of October
lard. There was an excellent de-
mand reported for cash lard for
exporters.

NO PLACE FOR THEM IN PEORIA

A gentleman from Jacksonville was recently in Peoria and called at a garage for some minor repairs for his car and asked if they had any desirable camping ground for tourists about the place or near it. The garage man said they most certainly had not and wanted none for the hotels wanted the business and didn't want travelers to camp near the place. The Jacksonville man told him that was the last money he would ever get out of him. He said near Jacksonville is a beautiful park with well, shade, eating pavilion in case of rain and a hearty welcome to tourists to camp free of charge. He said some Jacksonville gentleman showed special

favours and kindness to a camper who sent a card and appreciative expression back from Texas and said returning he would surely come this way. The Jacksonville man felt very sure his home town showed better sense than the big city to the north of us.

GOOD SHOWING OF SOY BEANS

Fred B. Six, residing near Strawn's Crossing, has a good story to tell of soy beans. He gets the black variety and plants two or three beans in each hill of corn. A short time since he visited the fields and on one stalk or vine he counted six hundred and three pods.

He has sixty acres thus planted and says he gets 100 lambs to turn into the field and harvest the beans.

Then he husks the corn from the stalks, cuts and plows under the bean stalks and corn stalks, follows with oats and wheat and the land actually improves with the years. Mr. Six regards the soy bean as one of the best legumes and greatly regards its value as a fertilizer. He has followed the course mentioned above for some time and it has always worked well.

RABBI ADLER IN CITY YESTERDAY

Rabbi P. Adler, of the Jewish Fraternity, was in the city yesterday, soliciting for the Ex-patients Tubercular Home in Denver, Colorado. This institution is maintained entirely by the Jewish people and is of an entirely benevolent character, as all patients are taken in and given the best of care and treatment with no obligation. It is called the ex-patients' home because the patients are mostly those turned out of other institutions not completely cured or because of lack of the necessary funds.

The hospital is one of the best equipped in the United States for its purpose and has nearly two thousand inmates. The buildings are very beautiful and it is one of the sights worth seeing in Denver.
